Introduction

Rojone is pleased to present our dedicated survey industry radio communications catalogue.

Not only has Rojone produced high quality radio communications antennas and accessories since 1981, we have also strategically teamed with Satel Finland to offer the Australian & New Zealand Survey Market high reliability, high performance industry compliant Radio Modems.

This catalogue showcases our most popular survey industry products. Many of the antennas and mountings are mature designs, evolved over many years of collaboration with customers' input.

Our products not only provide exceptional electrical performance, they are noted for their superior mechanical ruggedness and reliability for harsh operational conditions of the survey industry.

While we already have a comprehensive range of products, Rojone has an impressive R & D division capable of custom development should new applications arise. Please feel free to speak to one of our representatives for any specific requirements you may have.

ANTENNAS

Rojone is one of Australia's leading Antenna designers & manufacturers. Our mobile radio antenna range started in the late 70's at the height of the CB and two-way radio boom. The demand for quality antennas suitable for the unique Australian environment was not satisfied by imported products, leading Rojone to develop the innovative range of antennas and accessories presented to you in this catalogue.

CABLE ASSEMBLIES

Rojone has been manufacturing and selling high quality cable assemblies since 1981. We offer a comprehensive range of locally manufactured assemblies noted for their high performance, low loss and reliability.

Assemblies are fully tested within our Ingleburn facilities to ensure the end product delivered to our customers not only meets but exceeds expectation.

Custom assemblies are also available. Please contact us with your requirements for a quote.

HEAT SHRINKS, CABLE TIES & INSTALLATION ACCESSORIES

Rojone proudly distributes quality heat shrink and cable tie products manufactured by HellermannTyton.

You will also find in this section quality Amalgamating Tape, the same tape used widely within the cellular telecommunications base station market for waterproofing.

In addition, Times Microwave USA Lightning & Surge protection devices are also ideal for equipment protection in fixed installations. Again you will find our most popular lines listed in this catalogue.

We have a huge selection, so if it's not listed, please call us.
