

PoE Injector with Lightning Arrestor (Model: ROJ-99103)

Features

- ❖ POE DC injector with surge protection built in.
- ❖ Ultra fast gas tubes and high current diodes for optimum performance.
- ❖ Can be used with any brand of radio using up to 60V DC.

Description

Rojone is pleased to present our new PoE DC injector with surge protection built-in. This unit features ultra fast gas tubes and high current diodes for optimum performance. This unit has been designed to be used with a huge variety of radio using up to 60V DC, and is a must have for all POE devices for ultimate protection.

Specifications

Order Code: ROJ-99103

DC Voltage Range	0 ~ 60V DC
V+	Pin 4 & 5
Ground	Pin 7 & 8
DC Jack	2.5mm Center Position
Dimension	3.1" x 2.2" x 1.1"
SURGE/LIGHTNING PROTECTION SPEC	
Insulation resistance at DC 50V	≥ 1 GΩ
Capacitance at 1 MHz	≤ 1.5 pF
Impulse Life, wave form 10/1000 μs, 300 Operations	200 A
Nominal impulse discharge current, wave form 8/20 μs, 10 Operations	10 KA
Nominal alterlating discharge current, 10 Operations 50 Hz, 1s	10 Arms
