

LMG Brass - Heavy Duty Connectors for Industry

Weald Electronics is widely recognised as a leader in the design and manufacture of circular connectors for the most demanding industrial applications. The high quality, extremely rugged LMG Range of connectors is ideal for use in a wide range of geophysical, mining, marine and petrochemical applications, where extreme strength and high reliability is essential.

Applications

The LMG series is designed and manufactured for reliable performance in a broad range of electric/electronic equipment and systems. These include gas & oil exploration, heavy plant, tunnelling machines, concreting, steel industry, shipbuilding, power units, petrochemical, conveyors, marine and other heavy industry applications.

Features & Benefits

- ✓ Tried and tested military contact technology
- ✓ High shock and vibration capabilities
- ✓ Environmentally sealed from IP67 to IP69K
- ✓ In-line, panel & cable mounting styles
- ✓ 2 to 26 contacts, 1 to 60 Amp rating
- ✓ Wide range of straight & 90° backshells
- ✓ Various plating finishes available
